

# Limeade

## Ingredients:

3 to 4 fresh limes (cut in half and squeeze juice from limes)  
1 ½ cups Granulated Sugar  
2 cups of Ice  
3 cups of Water

## Directions:

Mix together all ingredients in an 89oz to 96oz pitcher until sugar is dissolved. I prefer to use an 89oz pitcher. This limeade is rather simple to make and it's a tart beverage.

## Variations:

Sometimes I use half water and half San Pellegrino.  
Add fresh mint ( I will bruise the mint at the bottom of the pitcher to get the flavor)
